MGU Card Sort Creation

Your group will generate cards for an organizational game of sorting. Cards should include topics from the Macro Geography Unit. Each group should progress through these steps:

1. Brainstorm topics and organizational paradigms. (on a sheet of paper titled "MGU Cards Brainstorming" and everyone's name and number above the title line)
2. Generate 10-30 cards from the brainstorming activity. The cards should be done on supplied index cards, and must be very neat. Write on the lined side of the card, with the red line "up".
